I, Keith Brent Duncan, using original [BIDonKeith.com](http://BIDonKeith.com) methodology, have bid out our extreme expertise to the highest bidder anywhere in the world. I have spent 45 years in corporate America and overseas designing and creating multi-million dollar telecommunication, banking, computer, and process systems as well as deploying multiple entrepreneurial products and services. In the past seven years, I dedicated my life creating new business methodology as well as visual interaction tools [IseeStand.org](http://IseeStand.org) PhoneCradle.org. Both are prime products for all INTL markets of education, residential, and businesses.

For this [www.BidOnKeith.com](http://www.BidOnKeith.com) Consulting Agreement, a corporation, group, or individual bids on my next 1 to 4 day engagement in their city anywhere in the world. I fly in from my current last engagement, then interview and brainstorm with your group on how to be more efficient. More importantly I brainstorm with your group how to actually be POSITIVE in most situations while maximizing profits. I work for any organization and government. Here is how the process works.

1. Contact our teams at [CreatorKeith@gmail.com](mailto:CreatorKeith@gmail.com) Call **numbers above**. Bid on our services through our coordinator over the phone or through [www.CreatorKeith.com](http://www.CreatorKeith.com). Document your #1 biggest issue or problem and we decide if our skills are adequate to benefit the majority of your government, organization, church, corporation and employees. If your bid is accepted, you are scheduled with a guaranteed start date time and overview of the process to help you solve your major relationship, legal, and financial issues using step-by step priceless processes that transform your business into ethical based profit making enterprises.

2. I travel to your site by best method, usually commercial air or private aircraft. Housing is preferred at homes of corporate officers (or employees) so that additional consulting can be provided. I typically work 16 hours daily because of my passion to serve others.
3. Either send us a debit card with your BIDDED value on the card or deposit insured BID into Keith's accounts. I then pay my own expenses that you track. I will also use this funding to invest back into your project. Anything left over goes to my Holding Trust Fund for use by others like [CEOSpace.net](http://CEOSpace.net). **If you don't receive contracted value in the first hour, I return the value you feel I did not deliver up to the bidden amount + 20% penalty. No questions asked.** I remain for 8 hours to accomplish your original objective. This educational process will be delivered in record time as I truly never wish to be embedded in any organization as a prime consultant after generating BILLIONS of USD in profit for other Fortune 100 corporations per my resume.
4. What topic and brainstorm area can I help solve? The answer is almost anything because I am a #1 prolific problem solver unconstrained by corporate barriers and hypocrites that seem to be controlling most business and government enterprises. If I don't deliver an immediate beneficial answer, I go learn what I need to deliver your solution. If necessary, I obtain your permission to confidentially consult with other business associates and your own people. We always guarantee results as this signed contracted agreement states that we **MUST** deliver more value than we receive. This is part of [ProfitShareHolders.com](http://ProfitShareHolders.com) where all members of an organization have a voting share in profits obtained after helping control all major expenses. If you are not happy, just subtract out the cost of anything we have bought and delivered to you, and we will reimburse you for any documented loss.
5. During our engagement, we privately document everything for you using video and audio recordings. If approved, you get FREE publicity on our websites of the process we use to solve problems. This contributes to huge profits and savings for your business plans.
6. Do we have any limits? We are only limited by two things in our lives. The first is our health and the second is our brain capacity. For we can travel anywhere and make a successful life with just those two items as long as we are healthy. You should try it sometime, like before you grow old and feeble and look back on these years with regret. For I will always be known as the TRUE MAN OF GOD (the ultimate Has Been), and not a NEVER WAS'. How about you? Contract with [BuiltByKeith.com](http://BuiltByKeith.com) LLC today for results.
